**COHESIVE TEARDROP SHAPED IMPLANTS
DESIGNED TO MIMIC THE NATURAL SLOPE
OF A WOMAN'S BREAST**

The profile of the
teardrop shape
has a more gentle
contour above the
nipple and more
fullness in the lower
portion of the breast

**OVER 90
TEARDROP
SHAPED IMPLANT
OPTIONS AND
TWO PROJECTION
LEVELS**

Available only in
microtextured shell surface²

smooth surface

POPULAR CHOICE

Soft yet durable. Smooth shells keep the gel inside and allow the implant to move naturally with the breast tissue.

microtextured surface

TEXTURED SURFACES ARE NOT ALL THE SAME

More rough and aggressive shell surfaces have been classified as macrotextured. Sientra's textured shell has been classified as a microtexture due to its less aggressive, finer surface.² Sientra's microtextured surface has been reported to have the lowest number of BIA-ALCL (cancer of the immune system) cases of all U.S. implant brands.^{2,3}

HAVE LOW COMPLICATION RATES⁵

LOW
Capsular
Contracture
rate*

CAPSULAR CONTRACTURE

A tightening/hardening of the
scar tissue around the implant

LOWEST
Rupture
rate*

IMPLANT RUPTURE

A hole or tear in the shell
of the implant

LOWEST
Reoperation
rate*

REOPERATION

Any additional surgery performed
to the breast after the first
breast implantation

see the most comprehensive and longest warranty

BECAUSE WE BELIEVE IN THE SAFETY AND
PERFORMANCE OF OUR IMPLANTS, WE CAN
OFFER THE INDUSTRY'S BEST WARRANTY

Our Sientra Platinum20 Product Replacement and Limited Warranty Program is the most comprehensive and longest of any breast implant manufacturer. Not only does it provide the most comprehensive protection and longest length of coverage, it also includes the most financial assistance and least amount of warranty restrictions in the industry.

Covers all primary and revision augmentation and reconstruction surgeries.

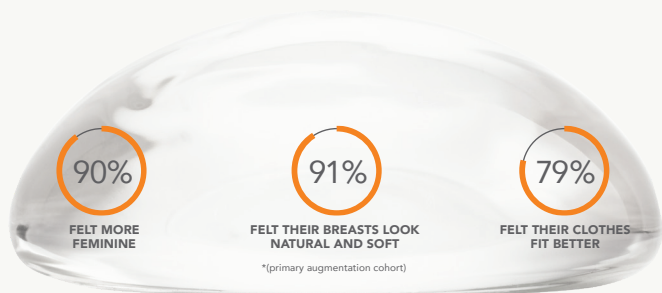

- LIFETIME** FREE implant replacement for rupture
- 20 YEAR** Up to \$5,000 for uncovered fees and costs due to implant rupture
- 20 YEAR** FREE implant replacement for complications of capsular contracture (Baker Grade III/IV), late forming seroma, and double capsule
- 2 YEAR** Up to \$2,000 for uncovered fees and costs due to capsular contracture (Baker Grade III/IV), late forming seroma, and double capsule

For qualifying patients with late forming seroma, Sientra will cover the cost of complete testing, based on current best practices, for Breast Implant Associated-Anaplastic Large Cell Lymphoma (BIA-ALCL).

*(primary augmentation cohort)

PATIENT SATISFACTION RATES⁵

see a board-certified plastic surgeon

Sientra is exclusively available to board-certified plastic surgeons, meaning you're in exceptionally good hands. Not all surgeons who perform breast augmentation reach the level of skill required and length of experience to become board-certified.

The surgeons Sientra partners with require the highest level of training and education and, as a result, are shown to minimize complications relating to breast surgery.⁶

IMPORTANT SAFETY INFORMATION

Sientra's Silicone Gel Breast Implants are indicated for breast augmentation in women at least 22 years old and for breast reconstruction. Breast augmentation includes primary breast augmentation to increase the breast size, as well as revision surgery to correct or improve the result of primary breast augmentation surgery. Breast reconstruction includes primary reconstruction to replace breast tissue that has been removed due to cancer or trauma or that has failed to develop properly due to a severe breast abnormality. Breast reconstruction also includes revision surgery to correct or improve the results of a primary breast reconstruction surgery. Breast implant surgery is contraindicated in women with active infection anywhere in their bodies, with existing cancer or pre-cancer of their breast who have not received adequate treatment for those conditions and, who are pregnant or nursing. Key complications include capsular contracture, implant removal, rupture and reoperation. For more detailed information about the risks and benefits of Sientra breast implants, please visit sientra.com/resources or call Sientra at 888.708.0808. Sientra breast implants with high-strength cohesive silicone gel are only available through board-certified or board-eligible plastic surgeons.

The sale and distribution of this device is restricted to users and/or user facilities that provide information to patients about the risks and benefits of this device in the form and manner specified in the approved labeling provided by Sientra, Inc.
